

The [Peconic Teacher Center](#) is proud to present:  
**G Suite for Education Summer PD Series**

---

Instructor: Leslie Brophy

[Part 1: Innovative Teaching with Google](#)

[Part 2: Google Classroom: Basics to Beyond](#)

[Part 3: Google Chrome Extensions and Addons to Enhance Learning](#)

[Part 1: Innovative Teaching with Google](#)

Dates of Course: July 20, 2020 - July 31, 2020

Credits: 1 (15 hours)

#### Course Description

This course will explore Google Apps as tools for creativity, collaboration, assessment, and communication. We will begin with the basics and then learn tips and tricks to transform your teaching into innovative, engaging lessons.

[Part 2: Google Classroom: Basics to Beyond](#)

Dates of Course: August 3, 2020 - August 14, 2020

Credits: 1 (15 hours)

#### Course Description

This course will guide participants with the basic features of Google Classroom then continue with tips, tricks, and strategies to use as a tool to enhance their teaching. Strategies for navigating, organization, classroom management, differentiation, feedback and assessments are just some of the topics that will be explored.

[Part 3: Google Chrome Extensions & Add Ons to Enhance Learning](#)

Dates of Course: August 17, 2020 - August 28, 2020

Credits: 1 (15 hours)

## Course Description

Extensions are installed in the Google Chrome browser and give you added features and abilities for customization. Add-ons are customized extensions of G Suite applications such as Google Docs, Google Slides, and Google Forms. Add-ons can add new capabilities to the G Suite applications they extend and help automate tasks. This course will explore a variety of Extensions and Add-ons that give added functionality, enhance student engagement, and increase productivity in the classroom.

In all three parts, participants will meet and be assigned presentations in a variety of input formats for each of the 15 hour courses. In addition, there will be assignments, and reflection questions. Participants will meet online and the course will be completed by the designated deadline. Participants who are taking all 3 parts, will have the ability to continue through part 2 and part 3 at their own pace. Google Classroom will be utilized as the delivery platform.

## Course Objectives:

- Explore various tools in the G Suite for Education to build a technology toolbox.
- Explore tips and tricks for creativity, communication, collaboration, and assessment.
- Construct digital learning activities that will allow students to become more engaged in the curriculum.
